Customs: Recommendation	Comments
Multiplicity of levies should be reduced. There should be only 3 levies namely, basic customs duty, CVD and anti-dumping duty.	Accepted in principle.
Removal of SAD should be linked to implementation of State VAT.	SAD has been abolished, without waiting for State VAT which is likely to take more time.
A four-tier customs duty structure of: 5% (for basic raw materials) 8% (for intermediates used for further manufacture) 10% (for finished goods other than consumer goods) and 20% for consumer durables.	Peak rate has been reduced to 20%. Peak rate of customs duty for metals has been reduced to 15%. This is a continuous process, and will be done taking into account the revenue needs and the need to protect domestic industry.
The tax base should be widened to improve the tax to GDP ratio and improve tax administration. As a policy all exemptions must be removed except in case of: ☐ life saving goods, ☐ goods of security and strategic nature, ☐ goods for relief and charitable purposes and ☐ international obligations.	Exemptions are being removed as far as possible. As a policy, end-use based and sector-specific exemptions are avoided.

LIC's share in ICICI Bank

1347. SHRI JANARDHANA POOJARY: Will the Minister of FINANCE be pleased to state:

(a) whether it is a fact that LIC has raised its stake in ICICI bank;

(b) if so, the details in this regard; and
